

## 1. Mobile

- a. (from last time) Clicking on these only opens "Search" tab. "Guns for sale" "ammunition for sale" ... "knives", "general items for sale" all have pages on desktop please correct the mobile links.

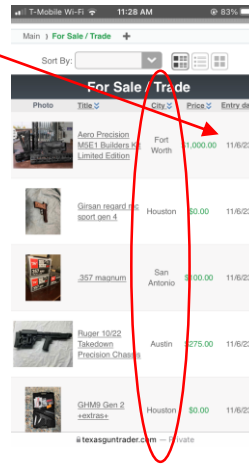

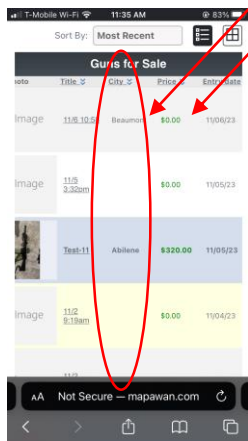

- b. (from last time) I see you have changed the entry date size. Please clean this up to look like TGT, it is the first things users will see!

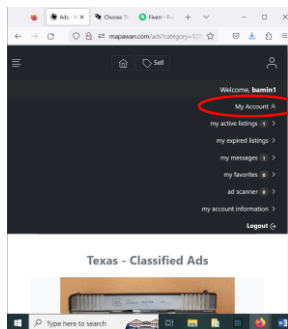

- i. home page (newest listings) should not have entry date & bigger pictures
- ii. "click here for..." (guns for sale) should have the ratios like TGT and show picture and entry date without scroll.

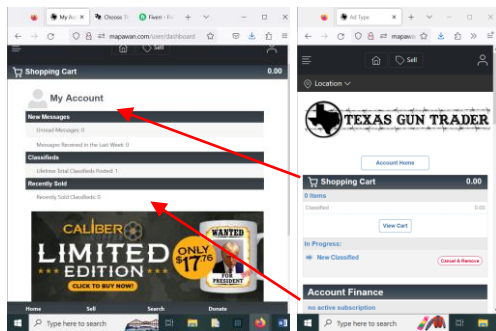

- c. City names to be centered.
- d. Tighter spaces for columns.

- e. Text edit: change “My Account” in dropdown menu to “Account Home”

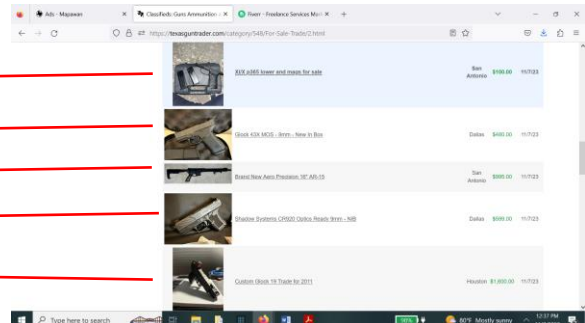

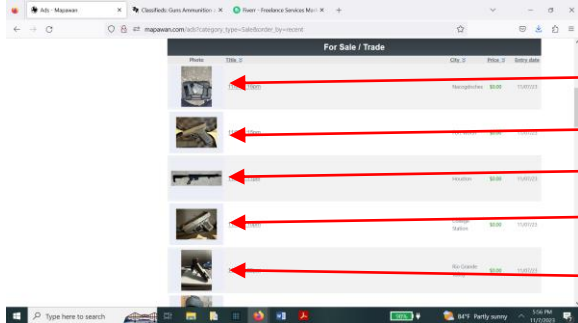

- f. (from last time) you removed “Shopping Cart” & “Account Finance” from “account home” page on mobile and now users cannot make purchases on mobile. Please put back ON “account home” page ONLY.

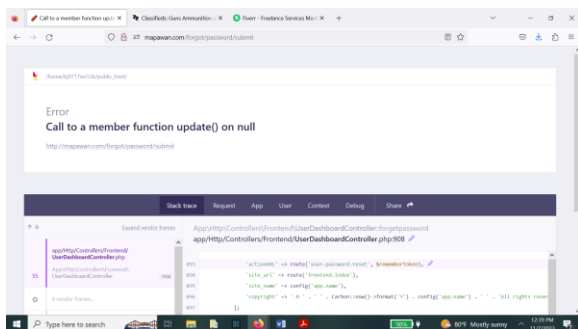

## 2. Desktop

- a. Fix image sizes on “Click here” feed page. Varied image sizes for more interesting feed.

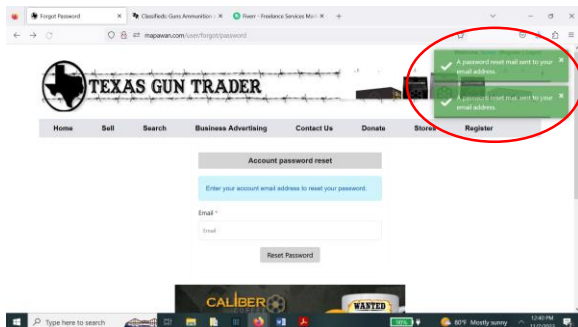

## 3. Pages/functions

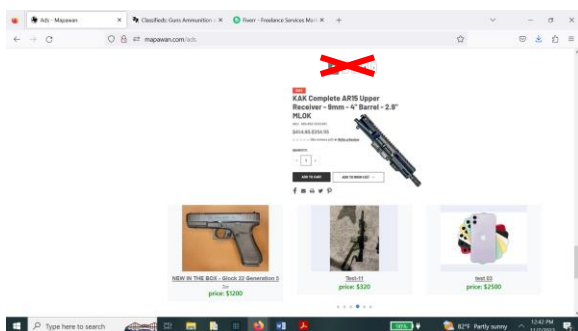

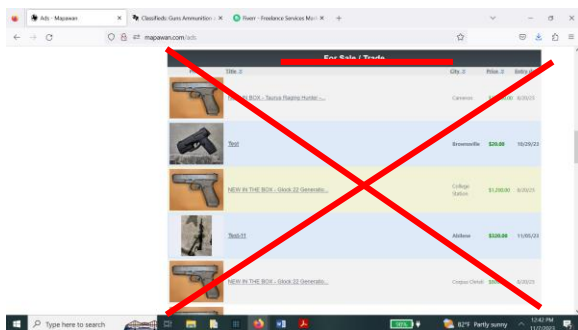

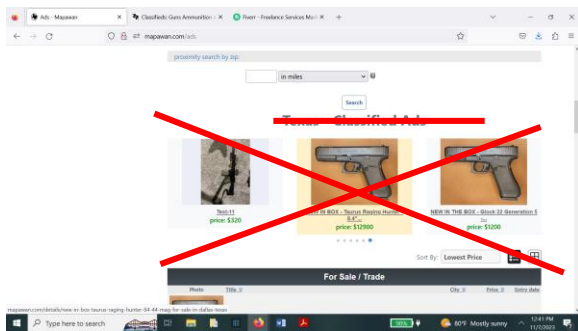

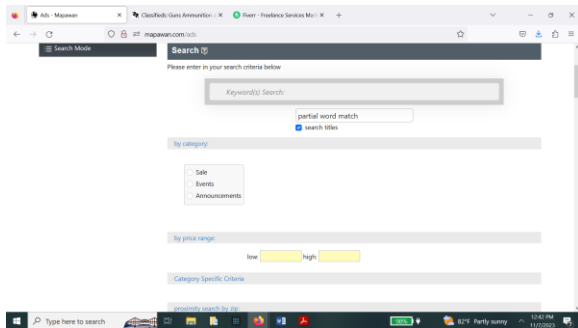

- a. Password reset code breaks when put in wrong email. Should just say “User email not found”.

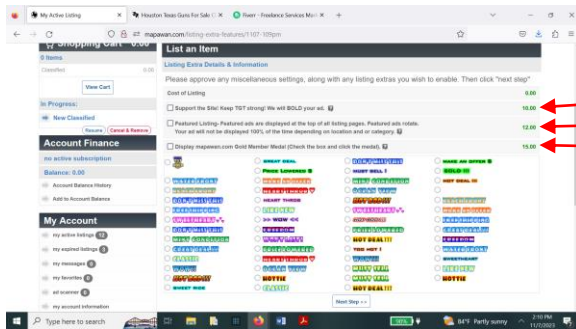

- b. Password reset has double function code when correct user email is inputted? It is slow to load plus two notifications.

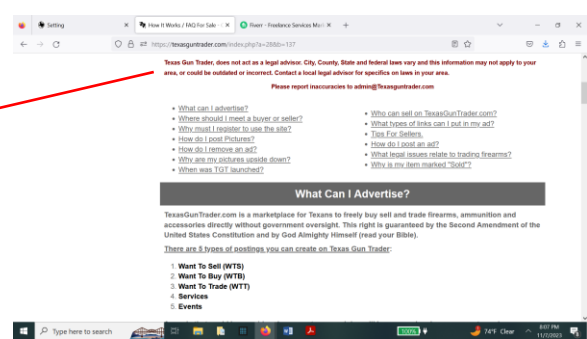

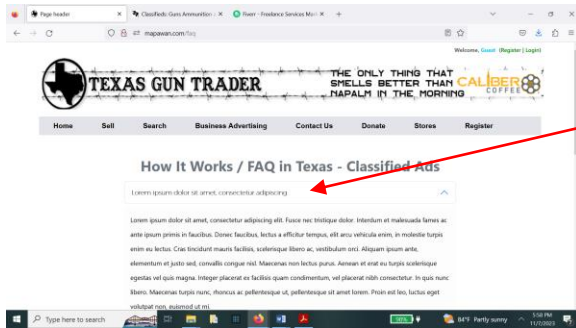

- c. Search tab – remove everything below “search” button. Leave featured posts and footer.

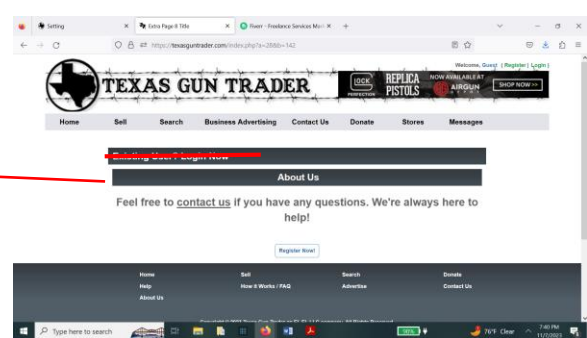

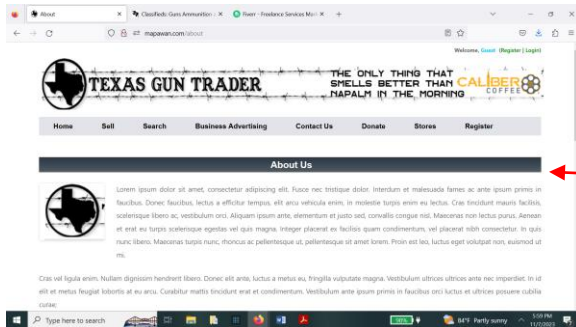

d. prices

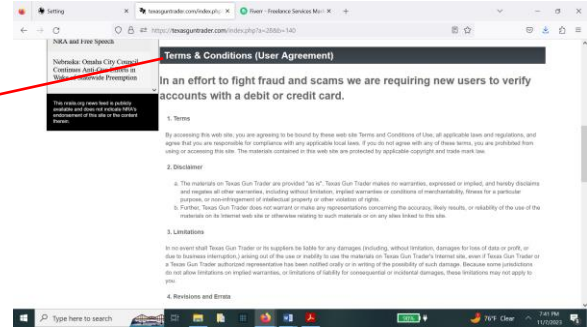

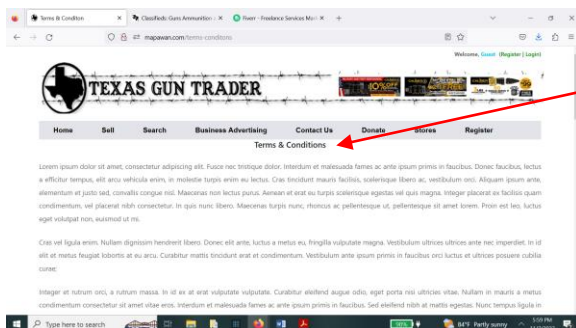

e. Help page – put info from TGT.

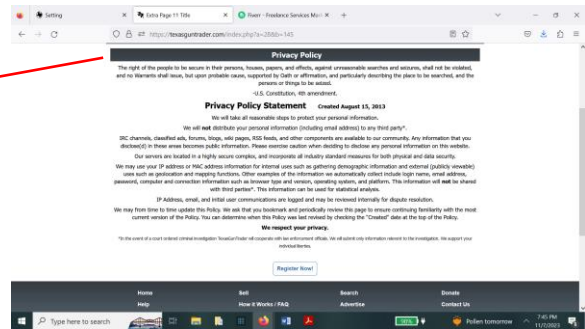

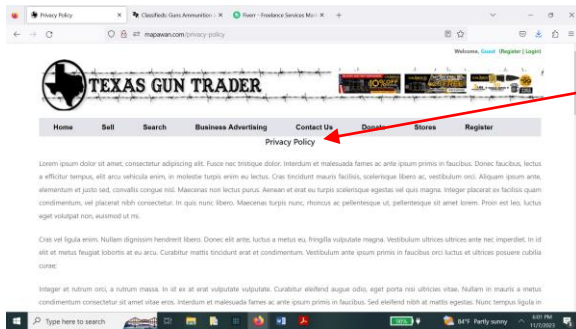

f. About Us – put info from TGT.

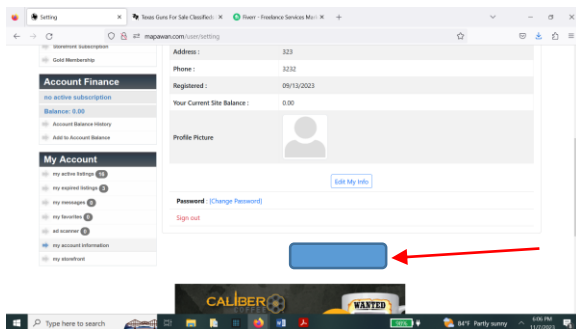

g. User Agreements – put info from TGT.

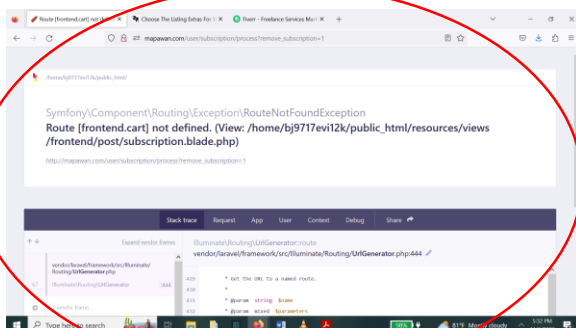

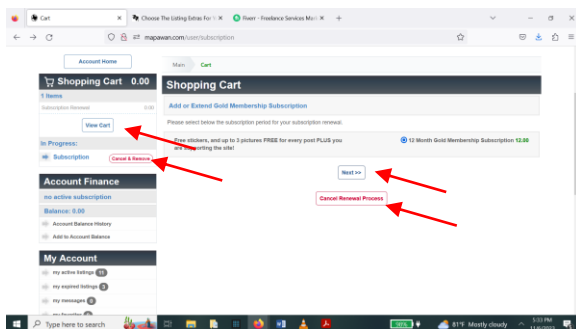

h. Privacy policy page – like TGT.

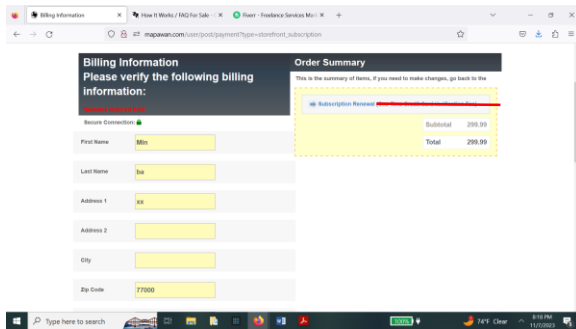

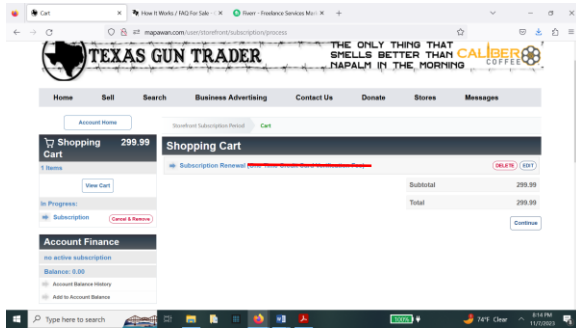

i. Add “account home” button on “my account information” page.

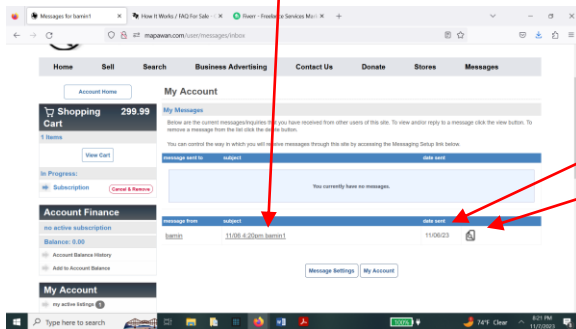

j. Once “gold membership” added to cart ALL buttons break code.

- k. text edit – delete “one time credit card...”. ALSO DO FOR LATER PAGES

- l. message – change “subject” to “message” and a click on this link opens message.

“See Post”

Make this to open post

- m. Please test the REPLY field underneath each message – there is no message received by the other side when a message is sent from there – THIS IS A CRITICAL FUNCTION.
- n. Please fix that if someone adds four pictures and then deletes one that they still are not charged.

Continuing problem for several revisions now
